

Assignment 5: API Testing with JMeter

Name: Aimen Munawar

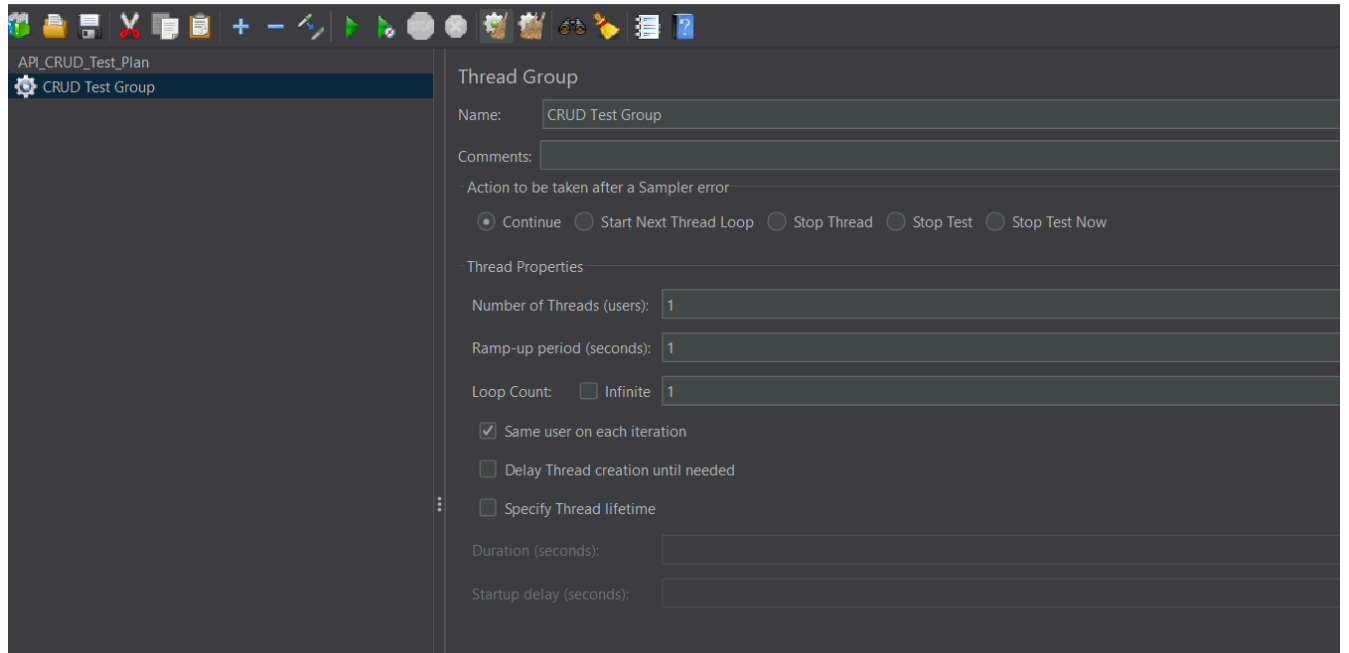

Public API Used for Assignment: <https://cybershield-backend-slt3.onrender.com>

Building the JMeter Test Plan:

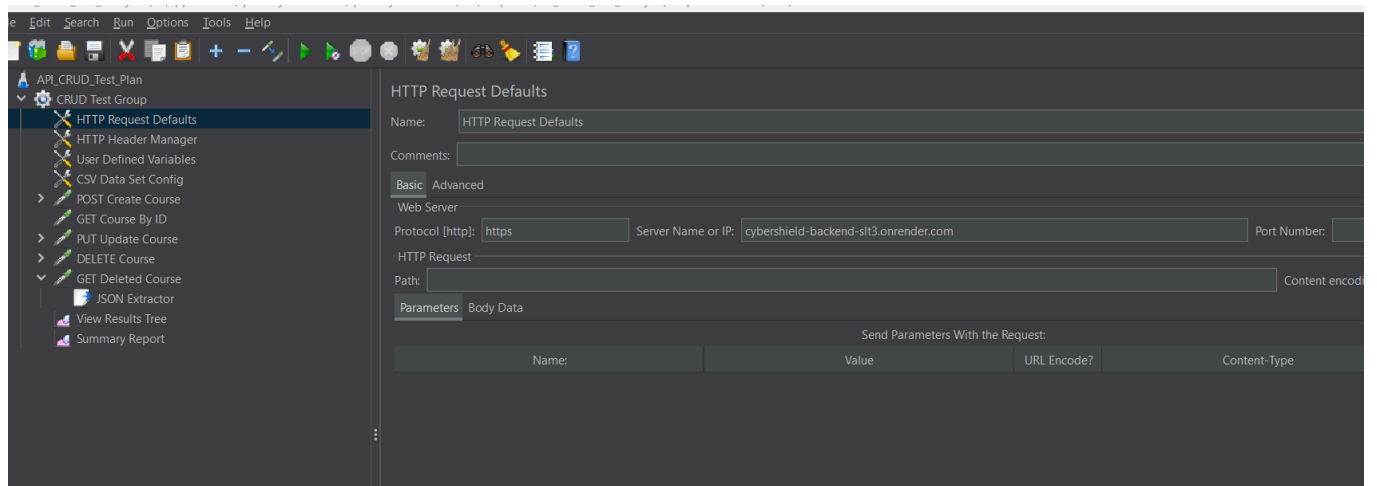

Creating Test Plan:

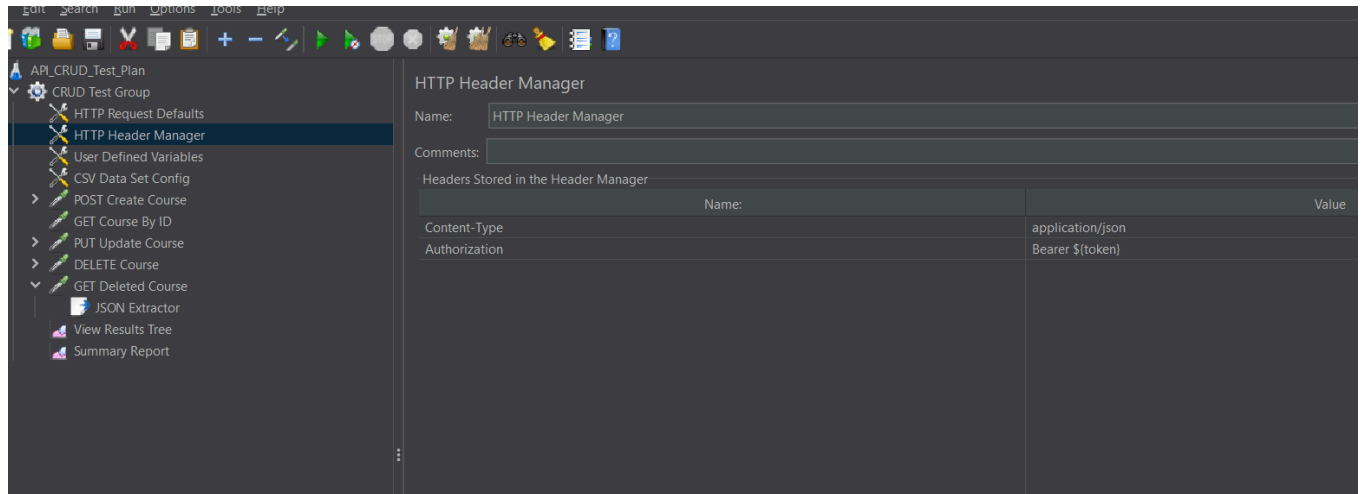

Adding a Thread Group:

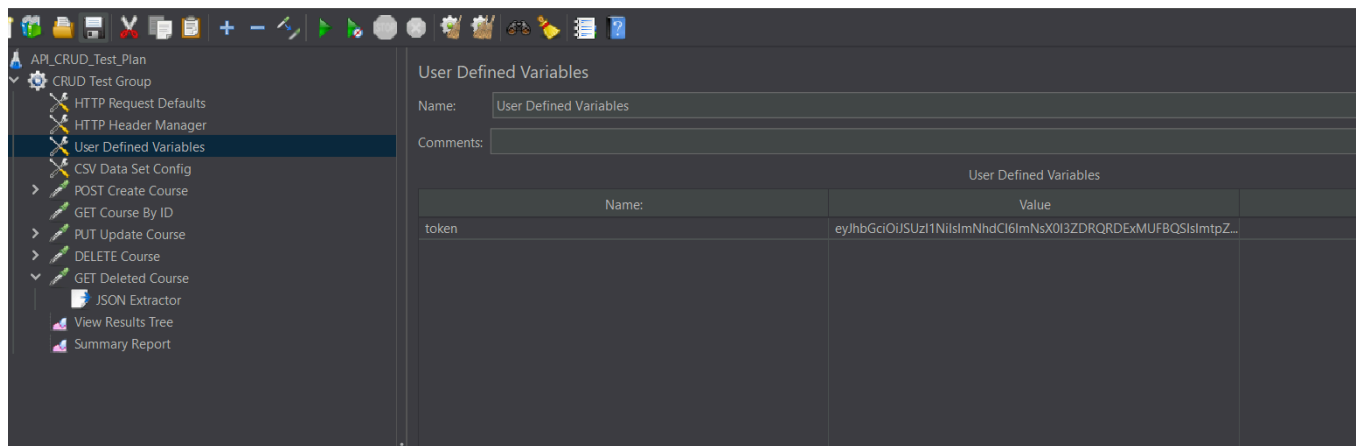

Adding HTTP Request Defaults:

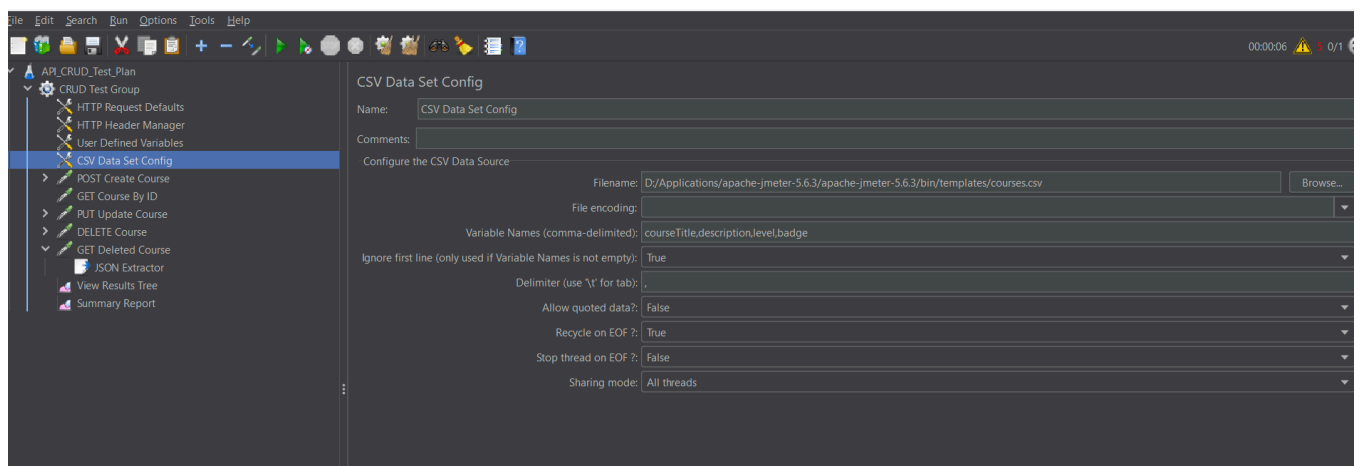

Adding HTTP Header Manager:

Adding User Defined Variables:

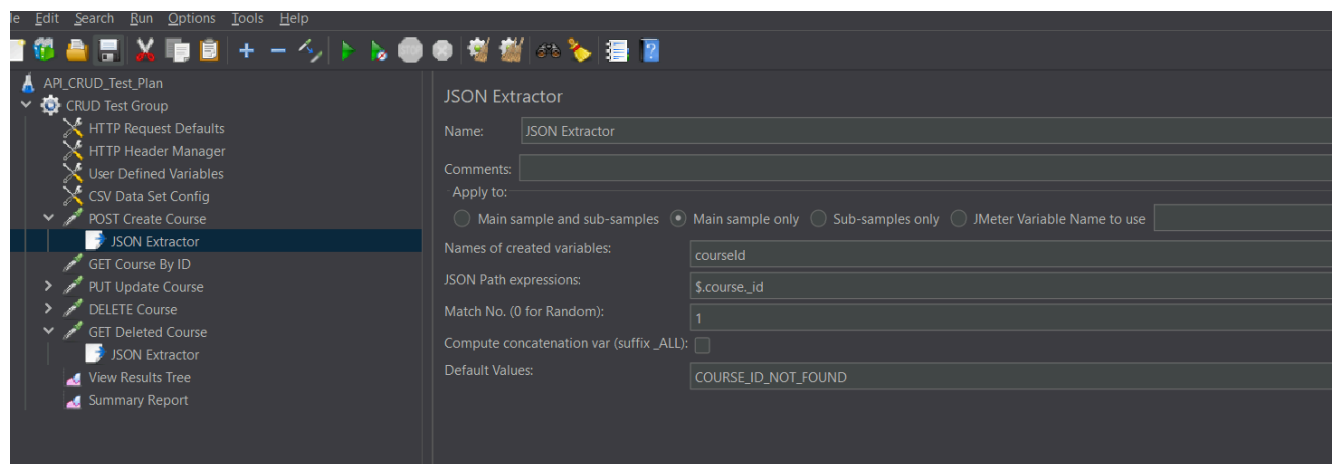

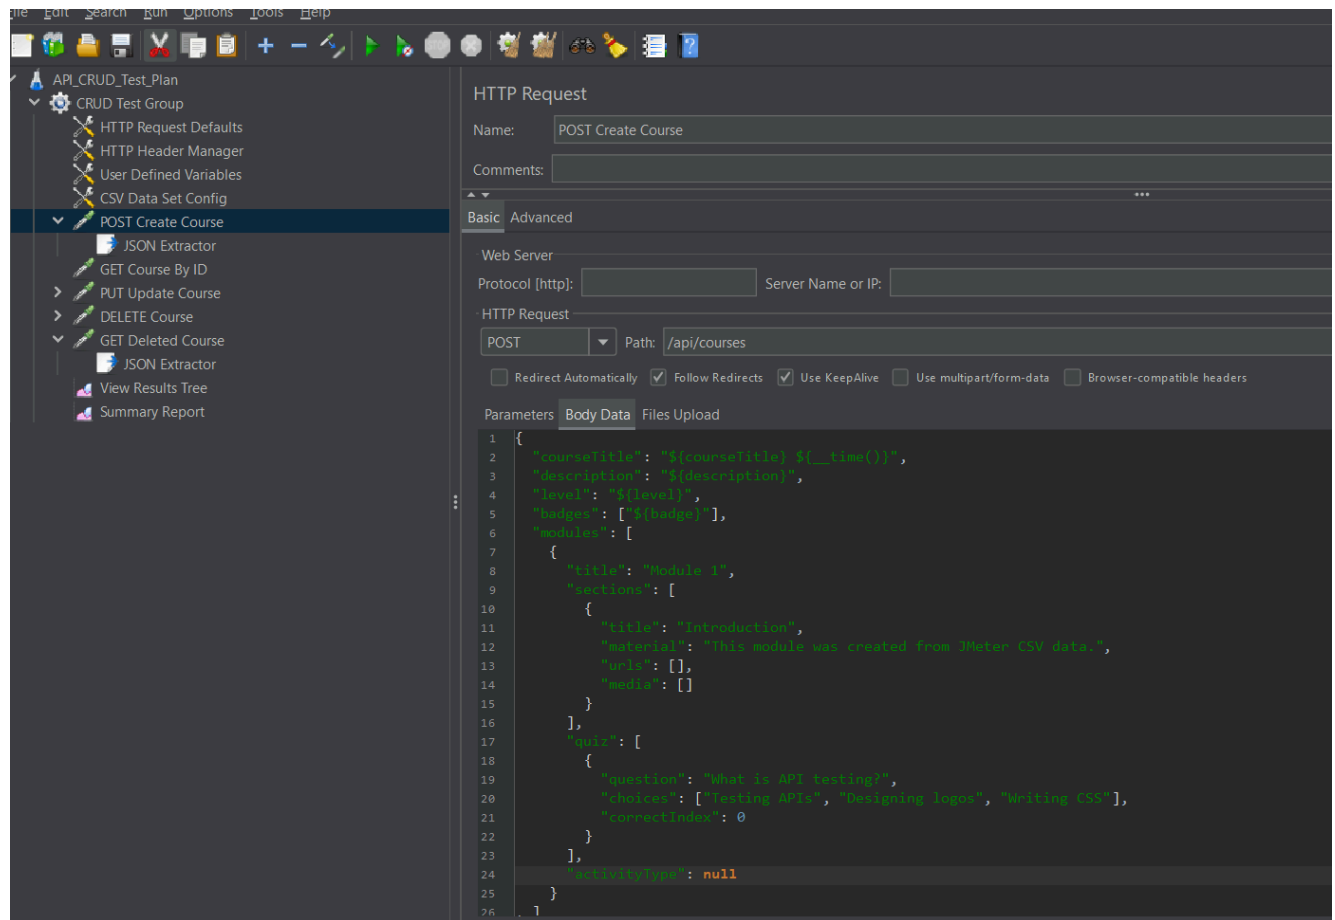

Adding CSV Data Set Config:

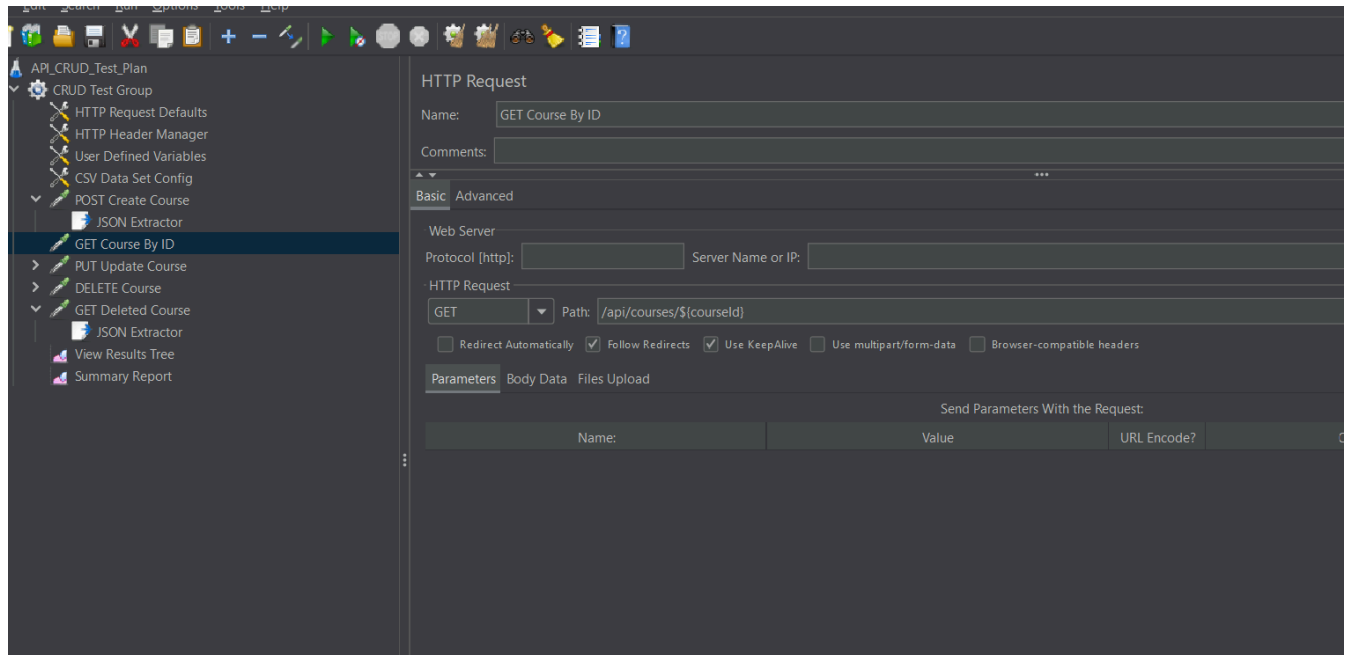

Adding the CRUD Samplers:

POST Create Course:

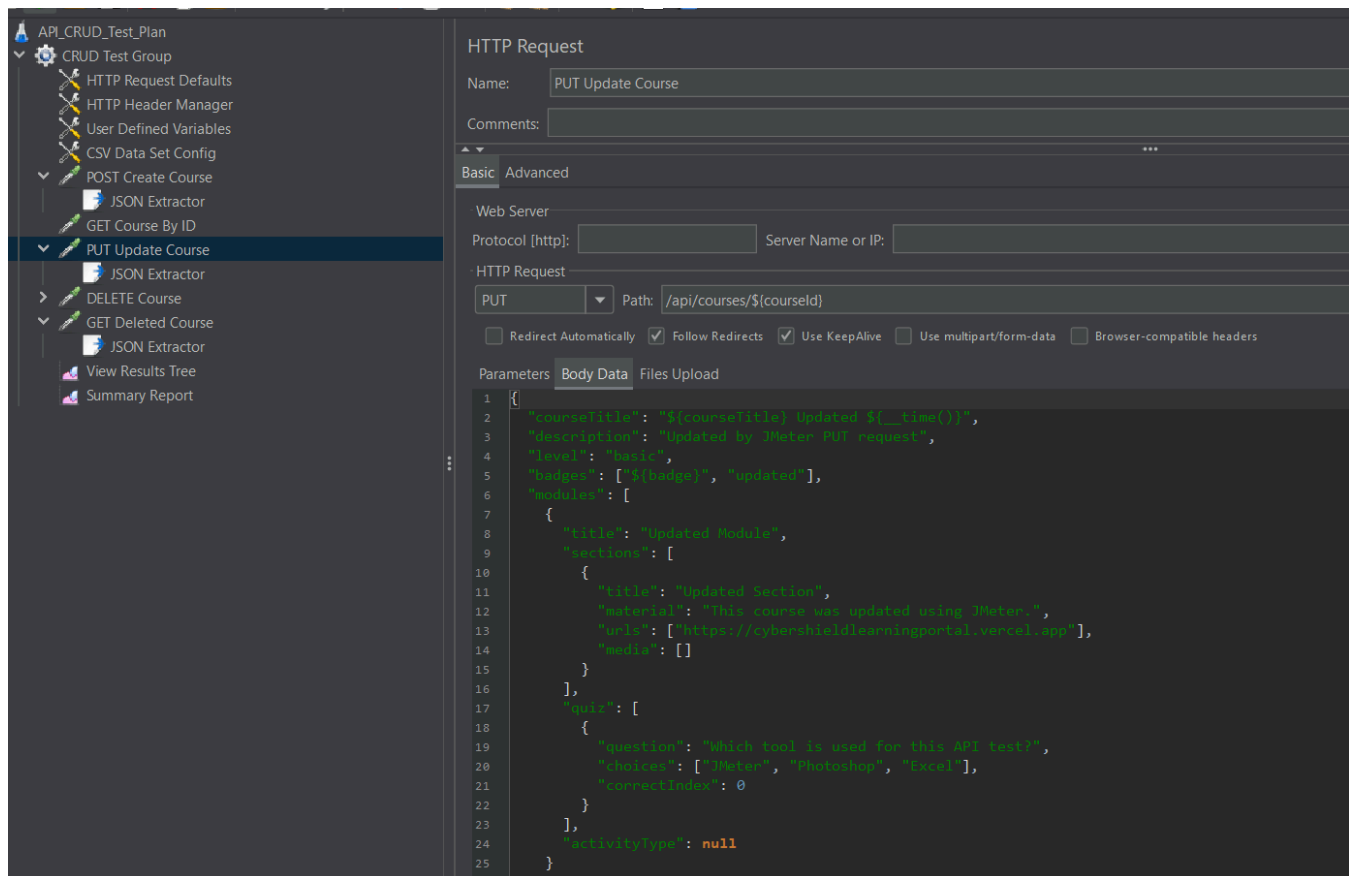

This post request uses the extracted data from the csv file.

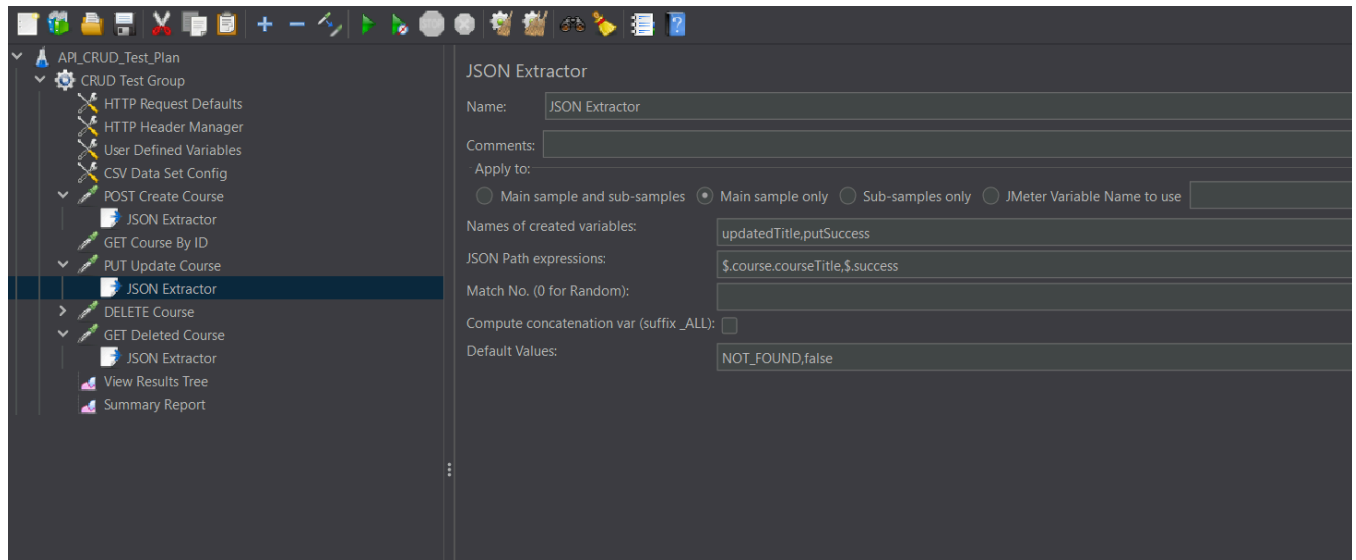

GET Course by ID:

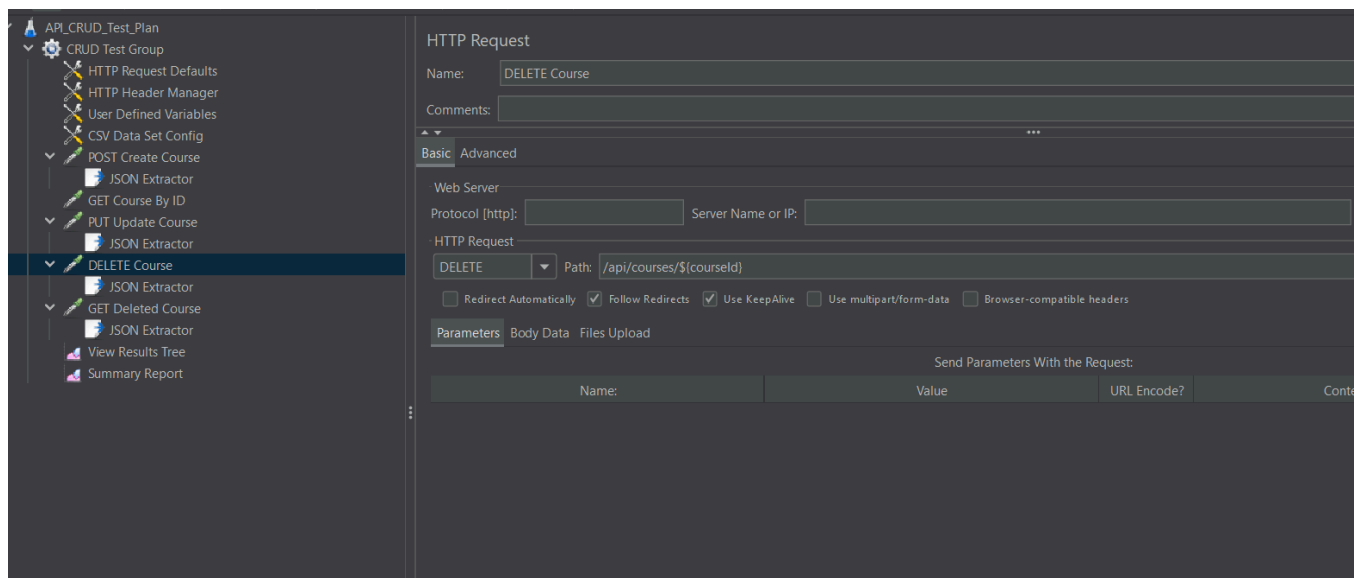

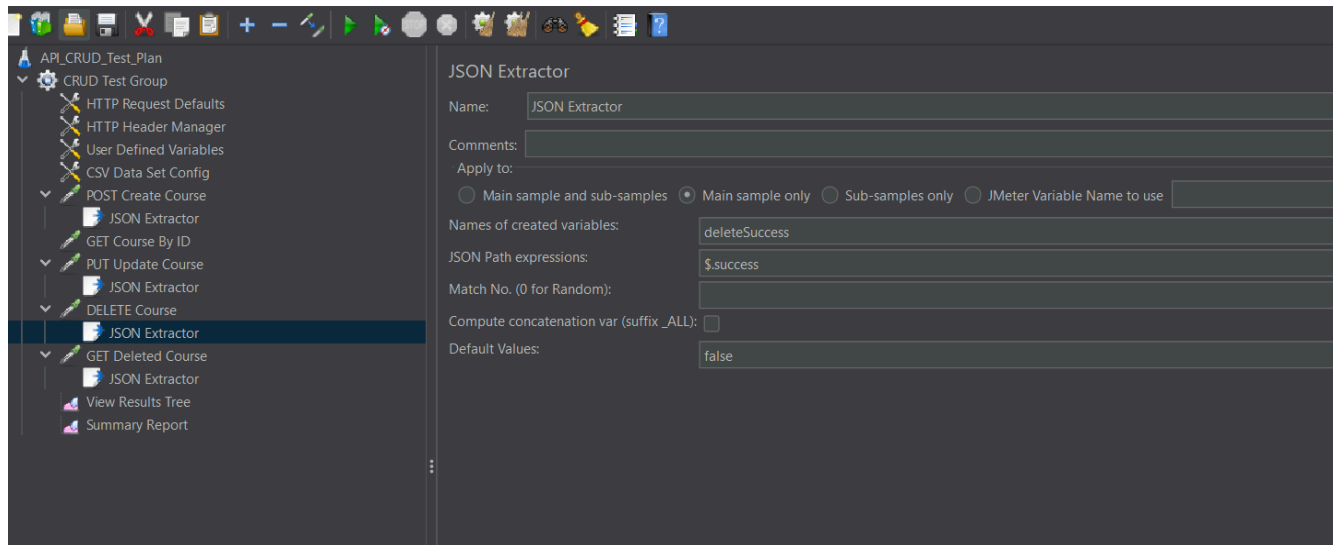

PUT Update Course:

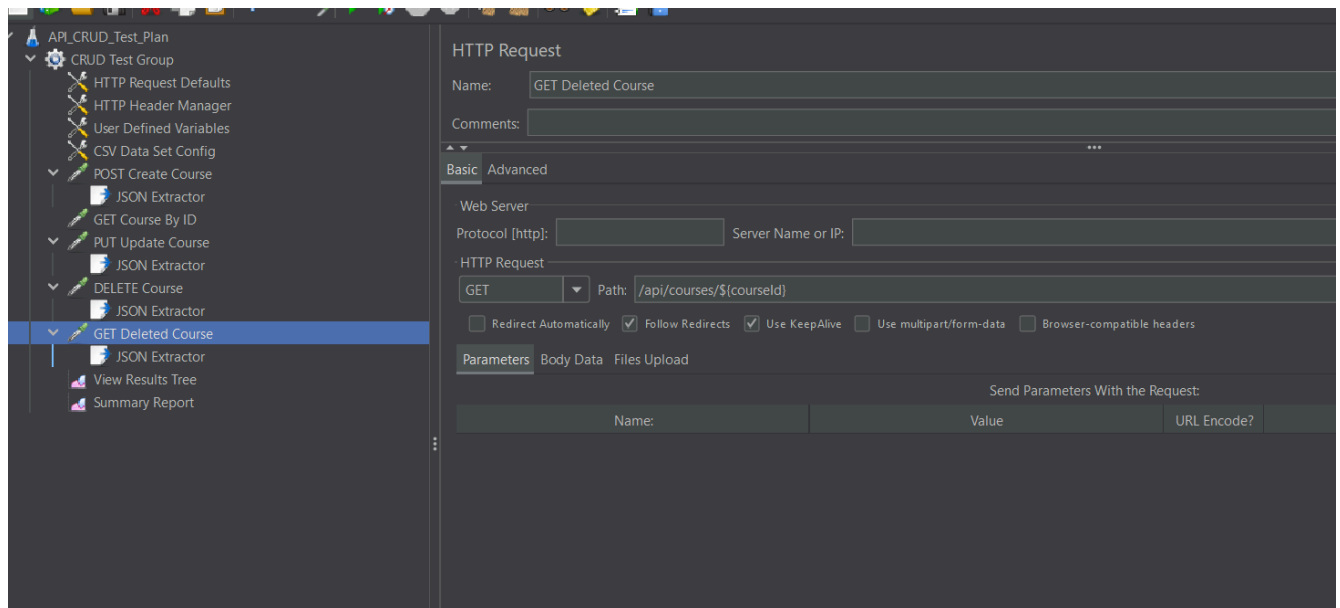

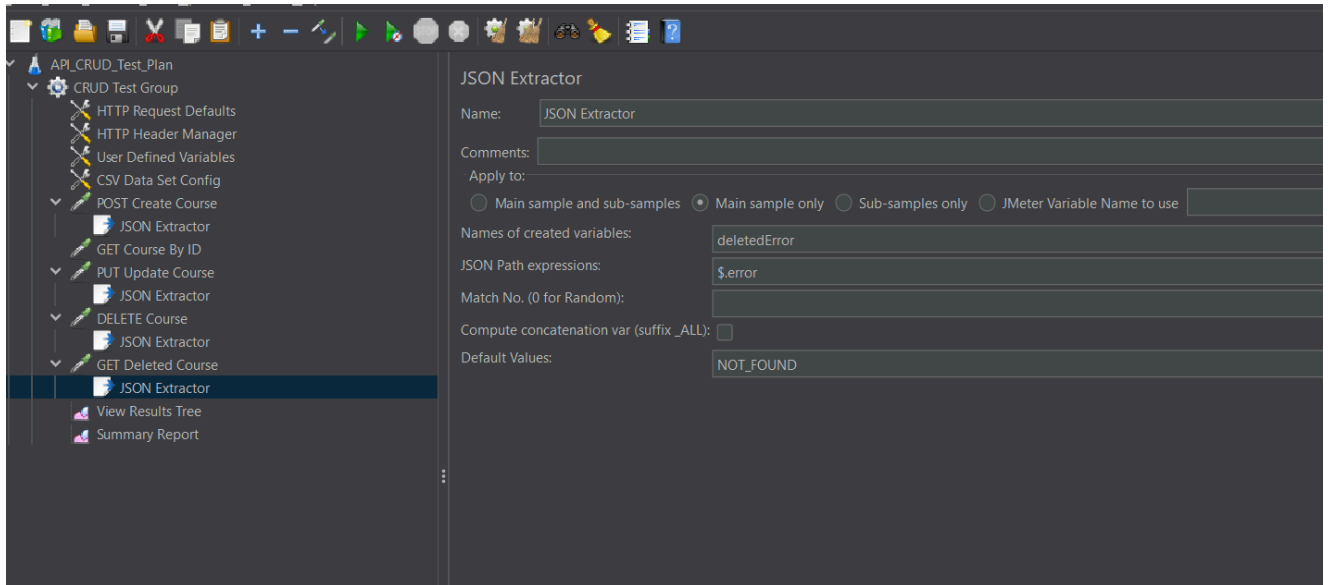

DELETE Course:

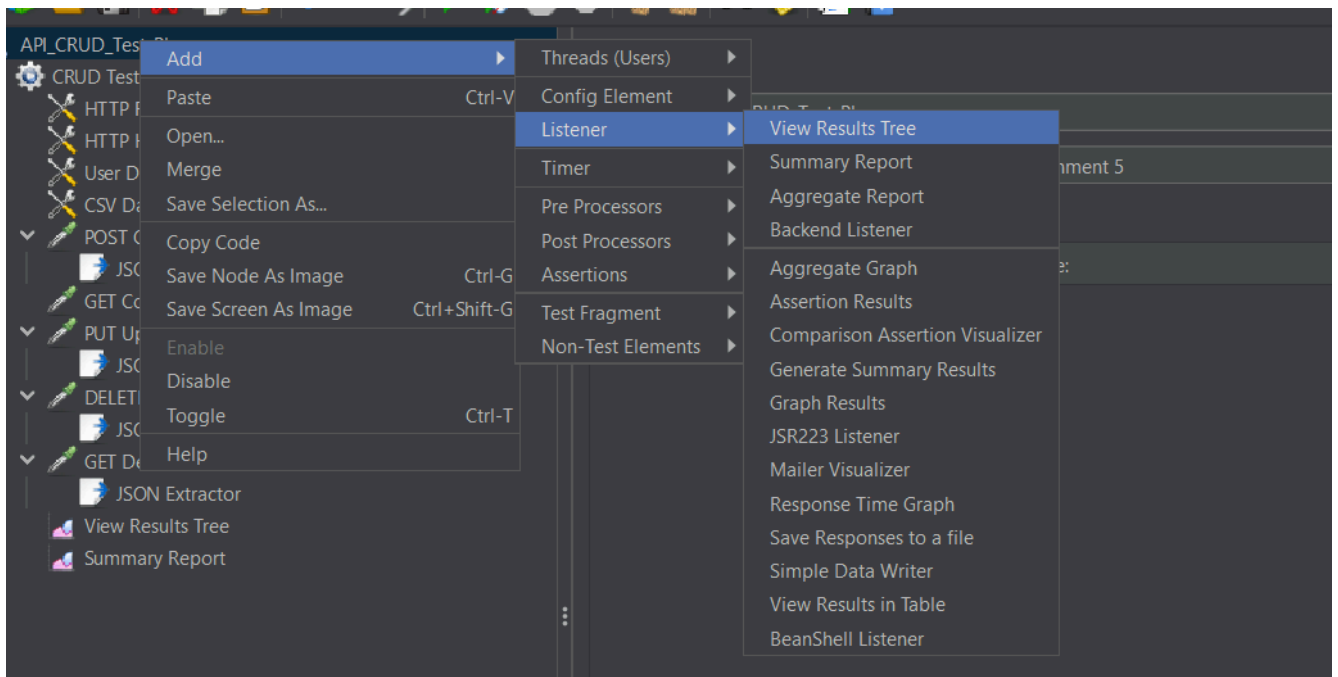

GET Deleted Course:

Adding Listeners to See Results:

Validating the Full CRUD Cycle:
